THE VULCAN ADVOCATE, May 2, 1917

PRICE \$1.50 PER YEAR

## NEW I. O. O. F. HALL DEDICATED

Dedication Ceremony Carried Out by Officers of Grand Lodge of Alberta

There was a large gathering of Oddfellows and their friends as well as members of the other local fraternal orders, present at the dedication ceremony of the new Oddfellows hall last Thursday evening.

The ceremony of dedication, which was very impressive, was ably and effectively carried out by the following officers of the Grand Lodge of Alberta: R. A. Parker, G.M., Winnifred; J. A. Tully, D.G.M.; O. E. Tisdale, G. Sec.; H. J. Adams, G. Treas.; G. W. Henderson, P.G.M.; J. A. Bishop, J. Smith and M. McDonald, of Calgary. The vocal numbers of the ceremony were rendered by the choir of the Vulcan Church.

Following the ceremony speeches were made by R. A. Parker, O. E. Tisdale, G. W. Henderson, J. A. Tully, H. J. Adams and E. M. Clark.

Bro. Parker in his speech congratulated the Vulcan Oddfellows on the beautiful hall which they had erected, and said that it was significant of the spirit of Oddfellowship which existed in the Lodge in Vulcan.

Bro. Tisdale, who spoke at greater length, remarked that the opening of the hall made a great day for Vulcan and vicinity. The Vulcan Lodge had rightly celebrated the 98th anniversary of Oddfellowship on the American continent by dedicating their hall to the Order. 98 years ago five members had organized the first Oddfellows Lodge in America, and today the membership was one and a quarter million. The speaker then proceeded to enlarge upon the work of the Oddfellows and the Rebekah Lodges, showing how much good they had done in the establishing of homes for the widows and orphans, and indigent members of the Order.

Bro. Henderson spoke of the

## DEATH OF MRS. B. B. BROWN

We regret to report the death of Mary Brown, the wife of Benjamin Benton Brown, of Vulcan who died on Monday evening, April 30th, at her home close to Vulcan. Paralysis was the cause of death.

Mrs. Brown was born in Sullivan County, Missouri, in 1849. She was married in November 1876, at Pomo, California, and came to the Vulcan district twelve years ago today, May 2nd, 1905. She leaves her husband, three daughters and two sons to mourn her loss, the names of the latter being Mrs. F. M. Robertson, Oakdale, Wash.; Mrs. A. J. Flood, Vulcan; Mrs. Wm. McNally, Vulcan; W. J. Brown, Whites, Wash.; and S. B. Brown, Vulcan.

The funeral service was held at the Vulcan Church at half past two today, the Rev. A. R. Schrag conducting the service. Interment took place at the Vulcan cemetery, Mr. G. L. Jacques, undertaker being in charge.

A number of friends from all over the district gathered to pay their last respects and offer sympathy to the bereaved family.

Big specials in shoes all next week at Reeves.

success and prosperity which had attended the Order and trusted that it would continue. Bro. Tully was called upon for a few words, and Bro. Adams discussed the work of the Encampment.

Following the visiting brethren Bro. E. M. Clark spoke a few words, giving a brief outline of the history and work of the Lodge in Vulcan, and said that the Lodge of Oddfellowship was a benefit to the community.

Bro. Wm. Bowie, N.G., occupied the chair. He replied to the various speeches which had been made, in an able manner, and remarked that he was proud to be in his present position in the Lodge on an occasion such as this.

At the close of the speeches the floor was cleared for dancing which was indulged in for a few hours. Supper was served during the evening.

## C.P.R. IS GRATEFUL

The officials of the C.P.R. are not unmindful of the saving of their property on the night of the elevator fire. A letter from C. A. Cotterell, of Lethbridge, has been received by Reeve Charters thanking the citizens of Vulcan for their assistance.

The letter is as follows:—  
"Dear Sir:—It gives me pleasure to write on behalf of the Canadian Pacific Railway Company to thank you and the citizens of Vulcan for the timely assistance rendered in protecting this company's property when the National Elevator was destroyed by fire on the 22nd inst.

"You will always find me ready to render all assistance possible should at any time your city be endangered from any cause.

Yours truly, C.A. Cotterell, superintendent.

## VAUDEVILLE COMING.

The management of the Vulcan Opera House announce that the Kelly and Lane Vaudeville company, under the direction of the United Producing company, will be in Vulcan shortly. The management have seen the show which consists of four acts of comedy and drama, and do not hesitate to recommend it thoroughly. The usual picture programme will be shown in connection with the vaudeville.

Watch for dates.

Dr. C. H. Nelson returned from his visit to Washington last Friday evening.

Mr. and Mrs. George P. Rowe left on Monday for Rochester, Minnesota. Mr. Rowe, who has been unwell for some time past, is going into hospital there, after which he and Mrs. Rowe will visit friends in various parts of the States.

Big Dance in the Oddfellows hall on Thursday, May 24th.

Messrs. O. A. Craig and W. D. Allan motored to High River on Sunday.

Mrs. W. A. Schenck and family returned yesterday from their visit to Spokane.

J. F. Trevelthick of Champion was in town yesterday.

The Misses Parker and Larkin, who have been in this district for the past week representing the Canada Life Assurance, left for High River on Tuesday.

Carol Shear, from New Haven, Conn., is visiting his relatives, Mr. and Mrs. T. M. Davis.

V. S. Cole is up from Long Beach, California, on business. He arrived in town today.

'Bluebird' features will be shown continuously at the Vulcan Opera House, to commence shortly. 'Bluebird' features are second to none.

Wm. Watt went to Lethbridge on Saturday to bring his wife and family to Vulcan.

The barracks have been moved from their old stand on Vulcan street to the new residence which Constable Harper is occupying on the corner of Neptune, street and Prairie Avenue.

Big dance in the Oddfellows hall on Thursday, May 24th.

Sir Edward Carson, first lord of the British Admiralty, has recently stated that the loss of shipping from the submarine menace is increasing. The British navy has an increased amount of patrol boats at work.

## PEARL OF THE ARMY

Pathes' serial sensation, featuring Pearl White as the Joan of Arc of Armies on Monday, May 7. It will be your patriotic duty to see this sensational picture. It will be shown in 15 episodes, one each week, beginning Monday, May 7, and Mondays of each week thereafter at Shimp's theatre.

## NO NEED OF WORRY

The farmers of Southern Alberta have no need of worry over the lateness of the season this year, for weather records show during the past 12 or 15 years that the latest spring seasons have generally produced the best crop years. C. B. Bowman who keeps weather records, has handed the Lethbridge Herald a summary of the weather conditions in April for ten years from 1902 to 1912, inclusive. In 1909 a good crop year, the average minimum temperature in April was 23.1 and in 1911 another good crop year the average minimum was 23.7. The following is the table compiled by Mr. Bowman, giving the years in order from 1902 to 1912 inclusive:

Av. Max.	Av. Min.	Last Frost
57.5	28.8	May 9
55.5	28.8	May 22
60.5	33.3	May 12
58.4	30.6	May 19
66.5	35.5	May 27
52.9	25.6	May 13
59.1	30.7	May 1
47.5	23.1	May 19
68.8	36.9	May 16
52.1	26.7	May 28
60.8	31.9	May 11

The province of Manitoba faces a strike of telephone operators, who are demanding higher pay. A canvass of the subscribers is being made to see whether they are willing to pay higher rates, as the strikers demands cannot be conceded unless the rates are substantially increased.

General Joffre, who says that United States soldiers are needed in France, has suggested to United States military chiefs that U.S. soldiers be trained back of the lines in France, where he believes they could be taught the new art of warfare quickly.

The attorney-general of British Columbia is at present drawing up a bill to make it an offence to contribute to campaign funds. The bill cannot be introduced this session, but it will be brought forward next year.

According to the latest reports in the hands of the British government, there were 8,000 locomotives tied up at Essen, Germany, in one month, owing to wear and tear caused by the scarcity of lubricating oils in Germany, or by the employment of bad lubricants.

## WANT GUARANTEE

A proposal that the American and Canadian governments guarantee minimum prices for wheat and potatoes will be discussed at a meeting of farmers called by the Equity Co-operative Exchange of St. Paul for Fargo, N.D., May 23-24. Farmers of Western Canada have been asked to send representatives. It was said the minimum price to be proposed would be \$2 a bushel for wheat and \$1 a bushel for potatoes.

Miss Ball, of Strathmore, has accepted a position in the office of the Imperial hotel.

## SNAKE CREEK NEWS

Mr. and Mrs. E. Robinson and family are visiting at the reserve this week.

The Misses M. Robertson and H. Campbell and Messrs. E. Kehr and Rodney Munsen motored to Queenstown on Sunday last to visit Mrs. Munro.

The Rev. Moore will preach at Berrywater on May 13th, and on alternate Sundays after that date.

Miss Lottie Smith is visiting her sister, Mrs. U. Deifenbaker.

Leslie McIntyre is in Calgary this week, visiting his uncle, Mr. J. McIntyre.

Mr. and Mrs. A. Will are spending this week at the reserve.

The Misses Parker and Larkin were the guests of Mr. G. Walker for the week-end.

Mr. and Mrs. J. Marshall are visiting in Calgary this week.

This month's meeting of the Reid Hill Womens Institute will be held at the home of Mrs. Fitzpatrick on Wednesday, May 9th. The business of the meeting will be work for the Red Cross and making arrangements for the Institute picnic to be held on May the 24th. A good attendance of members is requested.

D. B. Simms of Hearnleigh has received word that his brother, A. M. Simms has lost his life in the recent fighting. He was wounded on April 13th and died on the 20th. Pte. Simms joined the 89th Battalion at Red Deer, and first saw active service in August of last year.

## TRY TO ABANDON FARM LABOUR

Propaganda Dropped Because of Possibilities of Aiding Men to Avoid Service

In a memorandum from W. D. Scott to Hon. W. J. Roche, minister of the interior, tabled in parliament in connection with a request by E. M. MacDonald for information respecting the importation of farm laborers into Western Canada from the United States, Mr. Scott states that after the United States entered the war all reference to military service was dropped from departmental advertising in United States newspapers. This was done because of the possibility of such advertising inducing United States citizens to come to Canada to avoid military service. Previously the assurance was given to Americans coming into Western Canada that they would not be liable to military service.

Mr. Scott states that as a matter of fact the propaganda to secure farm laborers from the United States for the three prairie provinces has now been dropped entirely. The Alberta and Saskatchewan governments, he says, have already secured sufficient help, and the requirements of Manitoba also seem to be fairly well filled.

Reeves is going out of shoes. Sale starts Saturday, ends when all his shoes are sold.

### U. F. A. SUNDAY WILL BE MAY 27

Official Circular Addressed to  
Local Unions by President  
Wood

A year ago I issued the first U. F. A. Sunday circular.

While we have just made a beginning, I feel we have reason to hope that much good will come from this day.

The realization that something is fundamentally wrong with our social institutions is growing stronger every day. People are searching diligently for a philosopher who will guide them in the

solution of the problems confronting them. They are saying, "Lo! here is the great leader", or "Lo! there he is". Carl Marx has a host of followers; Henry George perhaps has more. Jesus has great multitudes of followers who believe in him as the true teacher of individualism, but those who believe he is all sufficient to solve all the great problems of a confused and perplexed civilization are few; fortunately this number is growing larger daily.

These problems can never be solved by individualism alone. Their solution must be forced by the co-operative strength of mobilization.

I am more firmly convinced than ever that the church will have to take broader responsibilities than it is now doing.

ities than it is now doing.

Is Christ to develop the individuals and Carl Marx mobilize and lead them? Is Christ to hew the stones and Henry George build them into the finished edifice? The hewer will soon be forgotten, while the builder will be remembered as long as the edifice lasts. If Christ cannot mobilize His forces and build true civilization His name will be forgotten in the earth.

Trade is the central influence in human relationships. Man touches his fellowmen more often here than anywhere else. This touch means prosperity and possible happiness, or it means poverty and inevitable misery. Until the problems of trade are solved according to the laws of Christ, His will cannot maintain on earth, and His great prayer cannot be answered. There is enough Christian material in the earth to do this work, but it is ineffective for mobilization, training and leadership.

The solution of the Economic problems must be spiritual, rather than intellectual. Henry George cannot solve them, neither can Carl Marx. Both may, and will give valuable assistance, but the solution is beyond them, Christ can and must solve them, but where are His leaders?

This is the work of the Church and the Church must take the responsibility for it. The progress of the Church lies directly through the solution of these problems, but the Church stands perplexed and confuse before them.

On the solutions of the Economic problems depends the solution of all others.

Once more I appeal to the Churches in Alberta and the United Farmers of Alberta to make the most of U. F. A. Sunday by a

co-operative effort to take one step forward in the solution of the great problems of life by the laws of the only Hope that comes to us out of an otherwise dark future.

To the Ministers who have manifested so much interest in our organization and have given so many words of encouragement I want to express my deep appreciation.

Some of you, yes, many of you, have seen the vision and have

manifested a desire approaching a passion, to be a factor in this great work. He who has a vision of a triumphant Christianity and a perfect civilization can not doubt. Give us what help and encouragement you can.

To each of our Local Unions, I would give a message of cheer and hope, and would ask you, in some way, to observe U. F. A. Sunday so as to make some progress toward a higher ideal. Wherever you can so arrange, get

a minister of some church, to address you on some subject involving the application of Christianity to our Social and Economic problems. If this can not be arranged, try to get some capable member of the U. F. A. to address you. Or, as a last resort, meet together as a local and discuss these matters among yourselves by short addresses or otherwise.

Yours fraternally,  
H. W. WOOD, President.

## A NEW WAY TO SAVE

The Province of Alberta offers to the Public

### Province of Alberta Savings Certificates

In denominations of Ten Dollars, One Hundred Dollars and One Thousand Dollars

These Certificates will bear interest at the rate of five per cent. per annum, compounded half-yearly.

Certificates are redeemable in three years, but may be cashed any time on the demand of the holder.

**Absolute Security  
Quick Convertibility**

Deputy Provincial Treasurer, Edmonton.

More Safety      More Mileage      Better Traction      Better Non-Skid

## QUICK DETACHABLE

SECTIONAL PLATE CHAINS

### 10 Reasons Why You Should Use Them

- 1 You can apply one-half, if in a deep mud hole or rut, without jacking up the car.
- 2 They do not creep, or allow the tire to spin in them and tear off the thread.
- 3 The plate is so shaped as to fit the tire, and has a wide surface, and will not injure tire like other non-skid devices.
- 4 The plate insures you absolute traction and prevents accident.
- 5 They are easily applied, therefore do not have to be worn except when needed.
- 6 The plates are of steel, and have heavy side chains.
- 7 They are the cheapest, because they last longest.
- 8 They are made in different sizes.
- 9 They are the safest, easiest on tires, and will pull you out of the mud on your own power.
- 10 All material used in their construction is the best obtainable.

Be Sure to See These Chains

### The Horse's Education

Special Training is Advisable For Farm Horses

It is not too much to say that the majority of farmers pay little or no attention to the education of the horses which they breed. The young animal is given scant attention until the age of two and a half or three years, at which time he is usually placed in harness. When he learns to behave himself, to go forward and to stop at certain signals, he is considered as having graduated, and so is said to be properly trained. Some horses being gifted with more intelligence than their masters, manage to pick up an education just as some men do. And it is these horses that know something besides going forward or backward and obeying the pull on the mouth, that get the biggest share of the farm work. These are the ones which the farm hands prefer to use, and the ones most profitable to work. This is the reason that they need not be totally regarded as machines, but rather may be depended upon themselves to exercise a certain amount of intelligence in the work they are doing. I know sections where prospective farmer buyers will hardly look at a horse not trained to voice control for farm purposes. And why not? Cow ponies, cavalry horses, etc., were taught to obey a word or a touch of knee or even a swing of the rider's body. This is an age of special training in men and women, and why not of reasonable training of farm horses? Yet farmers and breeders seem satisfied if they persuade a horse to wear harness and draw a load, even if they must swing full weight on a line to pull him around a corner and back into the furrow or off a corn row or tomato hill, or out of the way of a three-ton truck.

**A Cure for Rheumatism.**—A painful and persistent form of rheumatism is caused by impurities in the blood, the result of defective action of the liver and kidneys. The blood becomes tainted by the introduction of uric acid, which causes much pain in the tissues and in the joints. Paracelsus' Vegetable Pills are known to have effected many remarkable cures, and their use is strongly recommended. A trial of them will convince anyone of their value.

**Her One Worry**  
"How's your wife?"  
"Fine. Her only trouble is me."—Exchange

**Minard's Liniment Cures Burns, Etc.**

Betty—I shall not wed until I find a hero.  
Marie—Well, my dear, just show any man who proposes to you a schedule of your yearly expenses, and if he doesn't back out he's one.

**The Oil of Power.**—It is not claimed for Dr. Thomas' Electric Oil that it will cure every ill, but its uses are so various that it may be looked upon as a general pain-killer. It has achieved that greatness for itself and all attempts to surpass it have failed. Its excellence is known to all who have tested its virtues and learnt by experience.

**Only One Left**  
There is only one remaining czar—Czar Ferdinand of Bulgaria. But he may as well begin to pack up—Hamilton Times.

**Minard's Liniment Relieves Neuralgia.**

**A Nice German Prisoner**

They Seem to Be Docile Enough in Captivity

When the German prisoners first come in they appear frightened and discontented, but after a few days they seem to be happy and cheerful, writes an officer. Their discipline is such that they are under a surveillance almost nominal and work well under the direction of their non-commissioned officer. At the sight of a French or British officer they stiffen up and salute in proper fashion, showing the same deference as toward their own officers, and indicating the complete discipline of the Teutonic nation. There is a docility about these prisoners that is almost pathetic, and it seems to please the easy-going Tommy Atkins, who shows only kindly feeling toward them, for he is constantly stopping when not on duty to give them tobacco or other good things. One simple-minded Tommy, after a desperate struggle in the trench with a huge German, whose face was considerably damaged by fist and bayonet, brought his prisoner in and calmly requested that he be allowed to keep him with him because he seemed to be a nice fellow.

**How He Told**  
The lieutenant was instructing the squad in visual training.  
"Tell me, Number One," he said, "how many men are there in that trench digging party over there?"  
"Thirty men and one officer," was the prompt reply.  
"Quite right," observed the lieutenant, after a pause. "But how do you know one is an officer at this distance?"  
"Cos he's the only one not working, sir."—Tit-Bits.

The German mauler can fire faster than any other rifle used in the war. The magazine holds five cartridges, loaded in charges.

### Growing Rice in Peru

In two coast departments of Peru, the cultivation of rice claims attention of the greater part of the inhabitants. The land is fertile, there is an abundance of water, and the climate is favorable. About 60,000 acres in these two departments are cultivated, giving an average yield of about 1,500 pounds an acre. It is estimated that the total production in these and other provinces will reach 40,000 metric tons in 1915-16. The quality is said to be unexcelled, and it finds a market in other countries as well as at home.

Royalties are very much like other folks. They can even be moderately bright at times. The Czar said when proposing, "The Emperor, my father, has commanded me to offer you my hand and heart."  
"And my grandmother, the Queen," replied the Princess Alix, "has commanded me to accept your hand, your heart I will take myself."

Millyuns—Have you ever had any experience as a valet?  
Applicant—Well, I used to dress windows.

### SPRING IMPURITIES IN THE BLOOD

A Tonic Medicine Is a Necessity at This Season

Dr. Williams' Pink Pills for Pale People are an all year round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring, when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to make new, rich, red blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but it does not cure anything. On the other hand Dr. Williams' Pink Pills actually make new blood which reaches every nerve and organ in the body, bringing new strength, new health and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Sold in all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

**Good Enough for Him**  
"I see there's some talk in this state upon the question of abolishing capital punishment. Would you vote to abolish it?"  
"I would not," was the decided reply of the old chap. "Capital punishment was good enough for my ancestors, and it's good enough for me!"—Everybody's Magazine.

Smith sent his servant, Murphy, into the village to bring home some chickens which he had ordered.  
"Murphy," said Smith the next day, "when you fetch me chickens again see that they are fastened up properly. That lot you fetched yesterday all got loose, and though I scoured the village I only managed to secure ten of them."  
"Sh!" said Murphy. "I only brought six."

### Sugar Abstinence Advocated

Food Expert Tells of the Harmful Effect of too Much Sweet Food

The war promises another blessing in disguise—according to food authorities. The rise in the price of sugar, along with the restrictions that have been in full force for months in Great Britain regulating its sale, have brought forth some protests, but mainly apologists for the advantages that will follow the war if a restricted consumption is maintained.

Eustice Miles, one of the foremost food experts in London, England, gives it as his opinion that indirectly an excess in its use results in the deterioration of the teeth and bones, and in a large number of other troubles, which are usually put down to some other cause.

"I am not speaking here," he adds, "of the fact that sugar may become alcohol—so that many teetotallers, who pride themselves on their 'abstinence,' but indulge in gross excess of sugar and sugary things, should really be arrested for the possession of illicit private distilleries within themselves. I am speaking of certain definite signs and symptoms which result largely from regular and continued excess of sugar and other carbohydrates."

"Up to a certain point let good sugar be taken, but let it be realized that, as sugar is taken now to excess, it is largely a stimulant and is also a cause of many all too common troubles."

The proverbial fallacy that a cat has nine lives has been revived by the fact that in removing the debris from the locality of the great East London explosion 36 cats were rescued, many rushing here and there on regaining liberty till they found domicile in workmen's houses.

### YES! MAGICALLY! CORN LIFT OUT WITH FINGERS

You say to the drug store man, "Give me a small bottle of freezezone." This will cost very little but will positively remove every hard or soft corn or callus from one's feet.  
A few drops of this new ether compound applied directly upon a tender, aching corn relieves the soreness instantly, and soon the entire corn or callus, root and all, dries up and can be lifted off with the fingers.  
This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that freezezone dries in a moment, and simply shrivels up the corn or callus without irritating the surrounding skin.  
Don't let father die of infection or lockjaw from whitening at his corns, but clip this out and make him try it.  
If your druggist hasn't any freezezone tell him to order a small bottle from his wholesale drug house for you.

**Regarded as Social Error**  
It is said to be regarded as a social error to mention the island of St. Helena while taking tea with the Hohenzollern family. — Charleston News and Courier.

Corns are caused by the pressure of tight boots, but no one need be troubled with them long when so simple a remedy as Holloway's Corn Cure is available.

### A Scheme to Promote Thrift

Working Out Plans to Encourage People to Save Money

A British committee that is promoting thrift has been taking opinions as to the desirability of dispensing with all retail shop window displays—the idea being, of course, to remove all suggestions for spending money except such as come from the natural promptings of cold and hunger. Opinions of London merchants are decidedly unfavorable to the idea, and it does undoubtedly go to an unreasonable extreme.

On the other hand, in time of peace the suggestions to spend outnumber the suggestions to save a hundred to one. Any retail street offers to the eye ten thousand ways of disposing of the money in one's pocket; while if one seeks a way of keeping the money he has to hunt it up.

Recently some widely known men in New York organized a company that proposes to buy government and municipal bonds, deposit them with a trustee, and issue against them saving certificates in denominations as low as ten dollars, which, in co-operation with department stores, cigar shops drug stores and so on, will be offered for sale as nearly as possible wherever people go to spend money, so the man or woman with ten spendable dollars will have right at hand the suggestion that it may be safely and conveniently disposed of without exchanging it for merchandise.

The chief objection to the plan is that \$10 is too high a minimum unit. Probably a combination of savings banks could work out a scheme whereby savings certificates for as little as \$1 could be had in any city as conveniently, say, as a bundle of cigars or a round of drinks—and the fact that they were obtainable could be kept constantly in the public's eye. True, there would be little or no direct profit to those who issued the certificates or sold them, but the indirect profit, in the long run, might be large.—Saturday Evening Post.

### A Yankee Who Was King

Truth Is Again Proved to Be More Strange Than Fiction

A monument was erected a few weeks ago to the memory of a dead monarch. It was just a simple pole, carved grotesquely and stuck in the ground like a fence post, but it represented a world of sentiment to those who raised it.

Strange as it may seem, the dead monarch to whom the honor had been paid by loyal subjects was a Yankee, a former sea captain who had imposed his welcome authority on a half civilized nation and had been accorded fealty in return.

"The dead monarch was formerly Capt. Welsbarth, adventurer, 'black-bird' and sailor, extraordinary," says the San Francisco Chronicle. "Forty years ago he went to San Francisco from Maine as mate in an American clipper ship. He reshipped for Australia and then into the South Seas on a trading expedition."

"Ten years later he came back with a belt full of gold and bought a saloon on the San Francisco waterfront. He presided behind the bar a year and then, tiring of a sedate life ashore, sold his saloon to his bartender for \$10, and with the laconic remark, 'This is no life for a white man,' sailed as a passenger for Tahiti. There he outfitted a little sailing sloop for trading."

"Afterward, it was rumored, he became a 'black-bird' recruiting by doubtful means Polynesian natives for delivery to plantation owners in Hawaii and other islands. In 1890 he put into Tahitea, in the Gilbert group, and there he met Princess Teoti, daughter of the native chieftain. They fell in love and were married by tribal ceremony and later by a Christian missionary in Honolulu."

### Pronunciation Bothers Him

How to pronounce the "Kut" in Kut-el-Amaar—whether as cut or coot—has long bothered many people. Sir Thomas Holdich says the Arabs of Mesopotamia call it "koot," the Indians "kote," and the people of Baluchistan "kwat." So there's another great war problem settled. But there's a chap figuring in the Russian revolution in his name that is bothering us now.—Ottawa Journal-Press.

### The New Styles

He—The styles in women's clothes are scandalous.  
She—Don't worry, dear. They'll change before you get me any.—Judge.

## AFTER ANY SICKNESS

your nervous system is shattered; your strength is wasted; your digestion weakened; your blood impoverished.

## SCOTT'S EMULSION

is the rich tonic-food to nourish your nerve-centers, repair the wasted tissue, improve your blood-power, sharpen your appetite and gradually re-establish your strength.

## A CURE FOR BAD POLITICS

If the new Non-Partizan League never accomplishes another thing it has to its credit the inspiring of innumerable letters to the daily press letters which are fraught, for the most part, with the purpose of discovering just what the League is going to accomplish. Those who are not of the Non-Partizan kidney are at pains to show that no League can be Non-Partizan for the simple reason that as soon as men form themselves into a group they must do so for some aim or purpose, and that in itself forms a party and constitutes a nucleus from which some definite policy must proceed. On the other hand, the Non-Partizan League have as their main purpose the forming of a group which will be non-partizan in complexion and which will stand for purity in political life. They aim to oust the existing corruption of government and put in its place a newer and better spirit working solely for the greatest good for the greatest number irrespective of personal gain or profit.

The project of the Non-Partizan League is an interesting one and worthy of some thought, but it is not devoid of points for criticism. Without bringing the good legislation of other governments along as a comparative standard and questioning whether any other body of legislators can do better or as well, it is worth asking whether the aim of the League is capable of bringing about the change its sponsors claim it can.

The formation of a new party takes one thing for granted; that all existing parties heretofore have been corrupt, and it is time we had a new one, one free from guile and temptation, capable of doing its work unalloyed by the spoils of office. The argument, in other words, is that the conscience of the party will control the conscience of the voters. Briefly, that is putting the cart before the horse. No body of men, forming themselves into a group, can expect to change the conscience of the voter. Parties are not responsible for the manner in which their affairs are managed. Reform, if it comes from anywhere, must come from the people through an awakened sense of civic, provincial and national pride. The longer they remain careless to the manner in which their affairs are managed, just so long will we have bad government and corruption. It matters not what name we give to a party, if the intelligent power is not behind it there can be little good come out of it, any more than we can expect electric light without a dynamo. In the last analysis our political life is just as good or as bad as the people, by their interest in it, shall determine, and until we have awakened to a full sense of our national responsibility in these matters, neither partizan or non-partizan league will reform us. The light must come from within.

## CANADA'S RELATION TO EUROPE

One can hardly read a newspaper these days without coming across an article dealing with the food shortage in Europe. The blockade is reducing Germany and her allies to various expedients for trying to ration their military and civil populations; Austria is in dire need of food and Turkey is practically on the verge of starvation. In the rest of Europe the greatest economic precautions are to be put into practice and the news reports state that by the first of June all European nations, with the exception of Great Britain, will have adopted compulsory food rationing. In Great Britain food rationing will commence a little later. The steady toll taken by the German submarines is giving rise to a problem really acute, one which will prob-

ably go far towards deciding the issue of the war.

Against this European situation we in Canada are in a land of plenty. Prices have advanced to a large degree and living is dearer, but we are without many of the burdensome restrictions and away from the direct menace of actual warfare.

Let us accept our position aright. If we are as favoured as we know ourselves to be there devolves upon us a duty in our relation to the rest of the world, and that duty is to conserve to the our every available resource against the time when we shall be called upon to assist our less favoured brethren. If it is the lot of the greater part of Europe to be ravaged by war for our sakes, then it should be our lot to do all possible in economically helping Europe to our bounty. The United States is already tackling this very problem and Canada tackled it long ago. But despite these warnings we are too prone to be forgetful of our obligations. Our failure to recognise the war as our own has led to a continuance of waste in many branches of our lives which does not speak too well for the future. Ere the war is ended it may be possible that we ourselves be made familiar with government restrictions regarding our daily lives. Even today there are many things of which the war has deprived us, and again there are other things rendered so expensive as to be out of the reach of many. With these clear signs it is not difficult to see us being called upon to give up a portion of our daily necessities for the sake of others. The call for greater production is no idle government fad, it is recognition of the fact that if we do not respond to the best of our ability we are falling far short of our duty. The cultivation of a vacant lot in Vulcan means more food in Europe. That is the light in which we must see the situation today. Every one of us, whether we live in the country or the town, is called upon to exert himself in some definite economic way on behalf of the rest of the world.

## NOTES

The continued cold weather and snow falls which we are having at present are causing some people no little concern as to when seeding will be completed. Although the season is more backward than usual there is no cause for alarm. The condition of the land is ideal, being well stocked with moisture, which means that grain will grow better when the warm days do come. From reports of other farming districts one is led to believe that the southern part of Alberta is ahead of most places. In parts of Saskatchewan seeding cannot commence for at least another week owing to the condition of the land, and in Illinois and other states south of the line seeding is more backward than it is here. There is no cause for anxiety.

Great Britain was practically the last of the European nations to seriously develop the aeroplane service, but when the war broke out she tackled the problem with a thoroughness which has today rewarded her with the finest air fleet of any of the countries at war. As to how she has advanced since then is realized when it is known that the average speed of an aeroplane has advanced from 60 miles to 90 miles per hour, high speed from 80 miles to 120 miles per hour; from 8,000 feet it can now soar to a height of 20,000 feet, and can fly a distance of 400 miles as against 120 in 1914. The carrying capacity is now 1,500 pounds of bombs as against 120 pounds when the war started.

Another shipment of the Red Cross necessities has been sent to headquarters. This represents work done for the soldiers. The local committee is anxious to have more helpers. The need is pressing, and the ladies willing to help will be cordially welcomed any Wednesday afternoon at the Oddfellows hall.

## Homestead Regulations

THE sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except when residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

ALBERTA

SAY YOU SAW IT IN THE ADVOCATE

## PROVINCE READY TO ISSUE SAVING CERTIFICATES

Remittances May Be Sent to  
the Deputy Provincial  
Treasurer

The provincial treasurer announces that the treasury department is now ready to issue provincial savings certificates to the public. It is expected that there will be a heavy demand for these certificates as they bear five per cent interest, compounded half-yearly, and are

payable on demand of the holder. The certificates will be issued either payable to bearer or to a specified person according to the wishes of the applicant. As these certificates are not redeemable by the province until after the expiration of three years, from the date of issue, it will be readily seen what an attractive investment these certificates afford those who desire to save and at the same time secure a somewhat permanent investment. Funds awaiting permanent investment may be used to purchase these certificates for temporary periods and withdrawn at pleasure.

Remittances may be sent to the deputy provincial treasurer and savings certificates will be issued therefor without delay.

Certificates will be issued in denominations of \$10, \$100 and \$1,000 or multiples thereof.

## LECTURES ON THE NATIONAL PARKS

D. W. Johnson, of the department of Interior, Ottawa, who has been touring the province in the interests of the National Parks of Canada, lectured at the Opera House last Friday evening, and showing many beautifully coloured views illustrating the wonders and glories of the mountain parks or playgrounds lying so close to our doors.

Mr. Johnson explained how these parks were a wonderful asset to the Canadian people in that they attracted, every year, millions of dollars to Canada in tourist money. They are the playgrounds of the Canadian people and belong to them; created for their benefit and pleasure.

The finest scenic features in the world have been made easy of access for autoists and tourists

of all descriptions. Why spend hundreds of dollars going afar and abroad for pleasure when at our very doors are the finest playgrounds in the world? A man can get in his auto in Vulcan and in a few hours be right in the heart of Banff park, travelling through the park over an auto road, and seeing scenery unequalled anywhere else in the world. The speaker urged upon his audience to see Canada first and use the nation's playgrounds. At Banff the department has set aside especially for autoists a beautiful camping reservation, and any autoist who desires to camp and live an out-of-doors life

can have the privileges of the camp ground.

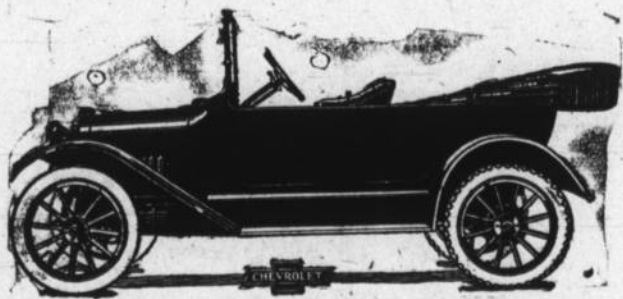

An auto week is to be held during the summer and it is expected that Vulcan will be well represented.

## NO LIQUOR TO SOLDIERS

In its first vote on the administration army bill on Saturday the senate adopted a most drastic prohibition amendment, making it unlawful to sell or give any liquor, wine or beer to any officer or man in uniform, or knowingly furnish any liquors to any person in the army.

## The New Series CHEVROLET

\$765 Roadster \$775 f.o.b. Vulcan

The Chevrolet has the famous valve-in-head motor which means fuel economy and power. This alone would justify your choosing the Chevrolet in preference to any car selling for less than \$1000, yet there are many other exclusive features to augment your decision. See the Chevrolet before you buy your car.

### A Canadian Trench Raid

#### Enemy Would Rather Face Anything Than the Canadians

The Germans have admitted as much that when it comes to a direct attack upon their trenches, they would sooner have any other force against them than the Canadians. They possess a furiousness, united to a coolness of action, that entirely disconcerts them. In its reports, the Canadian War Records office describes one of these recent raids upon the enemy, which amply bears out the verdict of the enemy. Stripped of all verbiage the account is as follows:

Our counter-blow was delivered at an early hour the following morning. Several parties took part in the operation. Under cover of an intense artillery barrage the attacking parties formed up outside our wire entanglements, and then advanced against the enemy trenches on a frontage of over 600 yards, including the well-known and strongly fortified position known as "The Pimple."

The Germans for the most part were still covering in their dug-outs when our men poured into the trenches. On the left there was a strong resistance from the direction of the Triangle, the Germans attempting to bomb down to the assistance of the position directly attacked. However, the party detailed to protect the flank field firm, and thus permitted another party to penetrate across several lines of trenches to a depth of about 700 yards. Any Germans who resisted were quickly shot or bayoneted, and many dug-outs from which the enemy refused to emerge were bombed and then destroyed by portable charges. Nobody was left alive in the whole area over which our attack was spread.

Sappers and pioneers who accompanied the raid located three large mine shafts, which they completely wrecked. The enemy retaliation was directed in part upon his own front line. We remained in possession of the German trenches for nearly an hour and finally withdrew, taking with us 47 prisoners of the 11th Bavarian Regiment, including one officer and two N.C.O.'s.

Sunshine will eventually puncture the thickest cloud.

## HAVE YOU ECZEMA?

Would you like to end that terrible itching, that burning pain, to heal those horrid sores?

You have tried all sorts of fatty ointments, lotions and powders. Put them aside now and give Nature a chance as represented by Zam-Buk.

Zam-Buk is made from herbal essences; is a natural healer. Is not something you have to send to the end of the world for, and pay a heavy price? Every drugist will sell you Zam-Buk and for 50c. only. Just give it a fair trial and incidentally give yourself ease by the quickest route. See name on box:—

**ZAM-BUK**

### A Tall Building

Tallest Building in the World to Be Erected in Detroit

Plans for what is expected to be the tallest building in the world—57 stories—to cost \$15,000,000, and capable of accommodating 10,000 people, have just been completed by a Detroit architect. Options have been obtained on a \$5,000,000 site, bounded by Michigan and Cass avenues, Lafayette boulevard and Abbot streets, and tentative tenders have been called for.

The building as planned will be a city in itself, with a postoffice, police station, arena seating 16,000 people, a quarter-mile track, and an auditorium with 30,000 capacity.

The plans call for a 27-story hotel and 57 stories of offices, running up into a tower 808 feet high, as compared with the 789 feet of the Woolworth building, New York. Two airplane landings 50 feet wide by 620 feet long will be located on the roof. According to the plans there will be 4,312 rooms. The foundations will be carried to bed rock. In the basement will be located 504 display rooms. There will be seven banquet halls, two small convention halls, one self-service, one dining room, two ball rooms, and a hospital on the second floor of the building.

### Montreal Man Tells Wonderful Story

**DEAD CASE OF BRIGHT'S DISEASE CURED BY DODD'S KIDNEY PILLS**

George Sullivan, Who Suffered From the Dread Disease for Two Years Gives Credit for His Recovery to Dodd's Kidney Pills.

Montreal, Que. (Special).—Completely cured of that most dreaded of all diseases, Bright's Disease of the kidneys, Mr. George Sullivan, 284 de St. Valiers St., this city, is spreading the good news that he found his cure in Dodd's Kidney Pills.

"I suffered from Bright's Disease for two years," Mr. Sullivan states in an interview. "I was unable to work for weeks at a time. I spent hundreds of dollars on doctors without receiving any real benefit and received outdoor treatment at the Montreal General Hospital."

"I was feeling very badly discouraged when a friend advised me to try Dodd's Kidney Pills. After using three boxes I was much better. I kept on till I had used nine boxes, when I was completely cured."

"Naturally I consider Dodd's Kidney Pills a wonderful remedy."

Dodd's Kidney Pills are no cure-all. They cure kidney diseases of all kinds from backache to Bright's Disease. The proof of this is their growing popularity in Canada for over a quarter of a century. If you haven't used them ask your neighbor about them.

### Canadian Made Lead Pencils

Substantial Orders Have Been Received Here From New Zealand

One of the war developments in stimulating Canadian trade is seen in the fact that Canadian-made lead pencils are now being sold in New Zealand. A report received by the trade and commerce department from Canadian trade commissioner Beddoe, of Auckland, says that a Canadian firm recently sent out to New Zealand samples of lead pencils, the first made in Canada following the stopping of the Austrian supply. Mr. Beddoe says that the samples were found very satisfactory and substantial orders have been sent to Canada.

He also notes that if Canadian firms were not so busy with war orders they could capture in New Zealand a much greater proportion of the business formerly enjoyed by Germany. During the past year at least one million dollars' worth of New Zealand orders offered to Canadian firms could not be filled.

Mrs. Youngwife—My husband is a very influential man in politics. Friend—You don't say! Mrs. Youngwife—Yes, George has voted in two Presidential elections, and both times it has gone the way George voted.

### Rations and Health

The Soldier Relies on an Abundant Supply of Good, Pure Water

Last September General Haig instituted enquiry into the feeding of the troops. With experts from the War Office the bread, meat, butter, tea, coffee and cocoa, etc., were examined on the spot. On the whole, the commission reported favorably, and satisfied themselves that the methods of inspection could not be very well improved upon. Standards, quantities, and freshness of delivery however, were revised, with the result that officers and doctors are unanimous in declaring that the care with which rations are handled accounts for the splendid health of the troops. Simultaneous with this, attention was paid to the water question, and it is interesting to note what a soldier has to say on the "dry" liquid at the front. "There is no drink that a soldier relishes more than good, clean, pure water. When one's pluck has to be got level with a stalling affair, anything that will give you ginger for the job is pardonable, but week in and week out the soldier loves his water. Since the beginning of the year the water has not only improved but is served with more expedition, and every one has a good word to say about the water-wagon."

Lawyer—Now you must keep nothing from me.

Client—I haven't. I paid you every cent I have in the world for your retainer.

I consider MINARD'S LINIMENT the BEST Liniment in use. I got my foot badly jammed lately. I bathed it well with MINARD'S LINIMENT, and it was as well as ever next day.

Yours very truly,

T.G. McMULLEN.

When you think that you are going to learn to love a girl remember that a little learning of that sort is a particularly dangerous thing.

One of the commonest complaints of infants is worms, and the most effective application for them is Mother Graves' Worm Extirminator.

English Navy to Have 400,000 Men. It has already been announced that the total establishment of the Royal navy in 1917-18 is to be 400,000 officers and men. A supplementary estimate provides for the addition of 50,000 of all ranks during the current financial year. With the passing of this vote the aggregate of 400,000 will already have been provided for, the original estimate for 1916-17 having been 350,000.—London Telegraph.

### The Angel Child

Exuberance of Spirits Seems to Be Necessary if the Child Is to Amount to Anything

Dr. Francis M. Greene, social hygienic specialist of Boston, issues a statement which should discourage parents who are in the habit of boasting of the goodness of their offspring. Dr. Greene classifies children in three groups: Very good ones, who are usually stupid; hereditary defectives and normal, boisterous, troublesome youngsters.

Two kinds of juvenile badness are recognized even by childless observers in the average home—the badness of selfishness, petulance and cruelty and the badness of excessive vitality, which manifests itself in destructiveness and uproar.

The boy-world is against the excessively good child. He will have a hard time of it in school and on the playground. A streak of wilfulness, of rough-and-ready assertiveness, if cultivated, yields the individuality and strength of character which life demands. The fiery colt and the boy full of devilment are to be cherished and trained with a careful hand. They are the worthwhile specimens.—Detroit News.

### A Reflection

"But, my dear lady, you should not allow your grief to overcome you. Remember your husband is far happier in the other world."

"M—maybe he is, but I think you are exceedingly rude to say so."

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merit through years of service. A trial will surely convince you.

### Dogs and Cats in War

Are Put to Good Use in Ridding the Camps of Rodents

Hundreds of cats and thousands of dogs are now serving their countries at the front. The canines have a wide range of duties, according to breed and size. Sledge dogs are used in transporting supplies over the mountains in the winter months, and big Belgian dogs also draw machine guns. The Red Cross has hundreds of four-footed assistants who search out the wounded in the "No Man's Land" between the trenches. Terriers and spaniels also have important duties to perform in freeing the trenches of the swarms of rats which infest them. The cats "do their bit" in the various storehouses back of the front, where the mice would work great damage if left alone.

The demand for cats as mouse catchers and for dogs as rat catchers is greater than the supply. From all over France cats have been shipped to the front to conserve the precious food supply from the ravages of rodents. Country cats are preferred to city cats for this purpose.

In the early months of trench warfare the trenches swarmed with rats, but this problem has now been solved by the French military authorities. They announced that each pilot fetching a rat catching dog to the trenches would be rewarded by two days' additional leave of absence on his next permission. Since that order was issued every soldier who visits his home makes it a point to find a terrier or a spaniel to take back to the front with him. Each owner of such a dog is also entitled to a small sum for each rat killed and the fortunate owner of an ambitious canine is greatly envied by his comrades.

The dogs and cats who serve their country in this way are favorites with the soldiers, and they find life easy and agreeable, with lots of sport and plenty to eat. Fido has only to bark or puss to mew to induce the poltroon to divide up their food.

Minard's Liniment for Sale Every where.

### Life Preserver And Travelling Bag

A Unique Invention That Would Prove Useful in an Emergency

Designed not only to look like an ordinary travelling bag but to be used as one under ordinary conditions, a life preserver that has just been invented apparently provides a sensible solution of the problem of safety at sea in time of sudden emergency. The bag is equipped with a false bottom that serves to hold in folded position a water-tight union suit which is attached in such a way that the bag and suit act as a water-tight unit. In an emergency all that is necessary is to dump out the contents of the bag, remove the false bottom to let the suit unfold, and get inside. The user then closes and locks the top over his head and jumps into the water, the required buoyancy being supplied by the bag. The body of the bag is equipped with a window and with valves that admit air but not water. Inside, there is space for storing food and water sufficient to last several days. To prevent disaster in case the water-tight suit is punctured, an air-tight bag that is easily inflated is installed inside the travelling bag.

## Doctor Tells How to Strengthen Eyesight 50 per cent. In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

LONDON.—Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Non-Opto tablets. Drop one Non-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes, two to four times daily. You should notice your eyes clear up perceptibly right from the start, and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Non-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and are prescribed by them. The manufacturer guarantees it to strengthen eyesight 50 per cent. in one week's time in many instances or refund the money. It can be obtained from any good drug store and is one of the very few preparations I feel should be kept on hand for regular use in almost every family." The Valium Drug Co., Store 5, Toronto, will fill your orders if your druggist cannot.

### Close Dartmoor Prison

Dartmoor prison, which is to be closed as a convict prison and put to other uses, was built during our last great war as an internment camp for French prisoners, and opened in 1899. For many years after the end of the war and the release of the prisoners, Frintown, as the prison is officially called, remained vacant, until in 1885 it was first utilized as a convict prison, being one of the largest in the country, with accommodation for nearly eight hundred prisoners. The use to which it is now to be put has not been disclosed but it would be rather a coincidence if, after a complete century, it is to revert to its original use as a barracks for prisoners of war.—London Chronicle.

### The Backyard's Importance

The Rotarian who said it was more important that citizens should cultivate their own backyards than that vacant lots should be developed spoke a simple truth. It is the backyards in the aggregate from which the increased supplies must come.—London Free Press.

### SATISFIED MOTHERS

No other medicine gives as great satisfaction to mothers as does Baby's Own Tablets. These Tablets are equally good for the newborn babe or the growing child. They are absolutely free from injurious drugs and cannot possibly do harm—always good. Concerning them Mrs. Jos. Morneau, St. Paul, Minn., writes: "I have used Baby's Own Tablets and am well satisfied with them and would use no other medicine for my little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### What Farming Is

R. B. Bennett just announces that farming is skilled labor. The truth is that farming is one of the learned professions.—Lethbridge Herald.

### Catarrh Cannot be Cured

With LOCAL APPLICATIONS, as they cannot reach the seat of the disease, Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Cure is taken internally and acts through the blood on the mucous surfaces of the system. Hall's Catarrh Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Cure is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.

Master  
OF ALL  
Farm Jobs

Here's a dependable, standard design, tractor that is master of all farm jobs. Its 13.25 horsepower engine does the work of from ten to thirteen horses and saves you men's wages. It burns cheap kerosene fuel, and that's another big saving. Its two-cylinder, four-cycle motor, opposed type, is free from vibration and very economical. It will plow an acre an hour. And when the ground is wet and loose, the big cone-shaped mud cake on the two large drive wheels grips powerfully so there's no slipping. Will handle a 24-inch cylinder thresher with self-feeder, wind-stacker, wagon-loader and swinging conveyor. Built for a long life; easy to keep adjusted and to operate; it cuts farm work and expense and increases profits. Send for circular to-day.

We also handle a standard line of Grain Separators. Write us for particulars.

## U.F.A. SPEAKER TO SPEAK AT LOMOND

H. W. Wood, of Carstairs, president of the United Farmers of Alberta, will speak all the appointments on the Lomond circuit on Sunday, May 6th. Mr. Wood is a speaker of reputed ability and his connection with the U.F.A. has won for him a wide recognition in Western Canada. It is planned to make these services of special interest to the farmers and all are requested to keep in mind the occasion.

In connection with Mr. Wood's visit to Lomond it is proposed to hold a farmers mass meeting on Saturday afternoon. The agricultural society executive will call a meeting for this day and it is expected that a large crowd will be present.

The construction of the new railway depot at Lomond is to be commenced this month. The town of Travers is presumably not to have a new depot this year.

Jas. E. Craske and family, of Lomond, are moving to Lethbridge, where Mr. Craske has accepted a position with a saddlery company.

Lomond is to have a fine new business block, which will be erected where Harmon's barber shop now stands. The building will have a ground floor space of 26 x 80 feet. The Standard bank will occupy the forty feet front space and offices will be fitted up on both floors.—Lomond Press.

## SHIMP'S THEATRE

We wish the people of Vulcan to know that in succeeding to arrange to show the permanent programme of Feature Pictures. It has eliminated all doubt as to the kind of pictures that are to be seen at the new theatre. The permanent programme of feature pictures means nothing but the best, as everybody knows it includes more well known stars than any other picture program in the world. We wish to call your attention to a few of the well known stars that are to appear at Shimp's theatre: Dustin Farnum, John Barrymore, Mary Pickford, Pauline Fredricks, Margrette Clark, Fanny Ward, Mae Murray, Pearl White, Charlie Chaplin, Lou Tellegan, Theo. Roberts, Owen Moore, Jack Pickford, Ralph Kellard and many other popular stars. In submitting this list of stars we claim as before to show nothing but the best of pictures at this theatre. We invite your inspection.

## LOMA NEWS

The Loma farmers are busy seeding, and although the weather has not been all that could be desired, about twenty per cent of the work is done.

Mr. C. H. Campbell contemplates building on his recently purchased half section.

Mitchell brothers with full force will seed the Sam Elliott quarter recently sold to Mrs. Mitchell.

J. M. Morrison has leased the Hoople quarter formerly worked by C. H. Campbell.

H. T. Grieve, with 2 drills, will soon finish seeding his lease on Neil Beaton's quarter.

George Terborgh, son of our former Loma resident Mr. I. Terborgh, returned to his old home here to offer his services to the Canadian ranks for the Allied cause. If the young men around Loma and other parts of the Dominion would follow Mr. Terborgh's example it would greatly relieve the poor distressed Belgians. Mr. Terborgh will go to Ottawa for training in the civil engineering corps.

## RED CROSS SHIPMENT
